

Release/ Heavy Equipment Training

The undersigned will receive training provided by the California Water Environment Association (CWEA) in the proper operation of heavy equipment. The training will be “hands on,” such that actual heavy equipment will be utilized in the instructions.

The undersigned understands that the heavy equipment that is utilized in the instruction is an example of how heavy equipment is operated and that the “hands on” instruction is necessarily limited to that particular equipment manufactured by a single manufacturer that is used in the instruction. The undersigned also understands that the course of instruction cannot and will not cover all heavy equipment and that there may be variations in the manner of proper operation of heavy equipment which is manufactured by others and which was not used in the instruction. As to such other equipment, the undersigned understands and acknowledges the necessity of receiving additional instruction to that provided by CWEA.

In consideration for the instruction to be provided by CWEA, the undersigned releases CWEA from any and all claims of liability which may in any way arise out of the instruction.
